

Notice to all MRC members:

As we all deal with the Covid-19 virus in our day to day lives, the disruptions are immense and sometimes difficult. Together I know our strengths will see us thru this unprecedented issue. For now, communication to the membership will be posted on the Website and Facebook and by phone.

While we must **Cancel** the General Membership meeting for April 3rd 2020 and **All** public events at the club due to Governor Cuomo mandated gathering limits Until further notice. We will hope for possibility of holding the May 8th meeting and will keep you updated on it as time nears.

Keep in mind that the outdoors is a great stress reliever and we encourage you to use our club range and lease lands, all are available to the membership to enjoy with the typical restrictions in March and April. The May 1st opening of the Little John Lease land roads / gates to vehicles will be (as always) dictated by the road conditions. Notification will be posted on the MRC Website and Facebook as we near the May 1st date.

I also want you to know that the MRC has a very strong leadership in the dedicated officers and board members. Rest assured that they will continue to "take care of business" as needed to address issues as required. We also have all of you, a very strong membership dedicated to the success of the MRC Club. If you need answers on any issue regarding the club, please contact me or any office or director for answers.

In the event that this Covid-19 crisis worsens the BOD will discuss the options and make a unified decision on the best path for the club and its membership.

Best regards to all!

Gary Crawford

President MRC Club
