

This is a “special” vote to purchase property

- MRC By-laws state
- **ARTICLE IV - OBJECTIVES:**
- The objectives of the Club Shall Be:
 - **To acquire property both personal and real and improvements thereto in order to create and maintain facilities for the objectives set forth in (1) through (7) above and for general recreation.**
 - **We (MRC) have an opportunity to purchase an important piece of property on Little John, which would complement the 55 acre piece we already own. Having this in the club would eliminate the possibility of an outsider purchasing it and having access inside the clubs gate. The history is very long with the property and dates back to the Plummers’ owing it. This would be an investment into the future of the MRC**
 - **MRC is financially strong with full membership and a full waiting list and are able to pay our bills each year because of the participation of the membership in our fundraisers and dues. The funds for the purchase will come out of the general fund (savings) and won’t impact our cash flow.**
 - **Three ways to vote; 1) Attend the meeting June 24th 2022 at 7 pm OR, 2) On line OR, 3) Mail in (must be received by June 22nd 2022)**
